

wayland::proxy\_t

```
graph BT; A[wayland::xdg_toplevel_t] --> B[wayland::proxy_t]
```

The diagram illustrates a relationship between two C++ classes. At the bottom is a grey rectangular box containing the text 'wayland::xdg\_toplevel\_t'. A blue arrow points vertically upwards from the top center of this box to the bottom center of a white rectangular box with a black border at the top, which contains the text 'wayland::proxy\_t'. This indicates that 'wayland::xdg\_toplevel\_t' inherits from or is a specialization of 'wayland::proxy\_t'.
